To CMBA members:

I am a student member of ANTA. I would like to submit the following suggestions to the Board, as **it is important that the CMBA hears the voice of the profession about the draft registration standards.**

Thank you for considering our comments.

- Australian-trained practitioners applying for registration under the national scheme should not be put to a higher grandparenting standard than applied under the Victorian scheme;
- The list submitted by the AACMA of Australian Chinese medicine programs deemed adequate for grandparenting purposes should be included on the CMBA list of courses deemed adequate for grandparenting purposes.
- All government/university-accredited qualifications at least three years full-time equivalent duration should be included on the list of courses deemed adequate for grandparenting, and that this include the past advanced diploma and diploma level programs;
- Unaccredited programs that were recognised by AACMA as meeting the requirements for practice at that time should also be included on the list of courses deemed adequate for grandparenting, and that this include the past practitioner diploma and unaccredited bachelor programs;

Regards

Kim Lee (ANTA Student member 10175)
