

Dear Sir/Madam,
as a long term practitioner of Traditional Chinese Medicine (Acupuncture and Chinese Herbal Medicine)

I suggest the following points be followed

Australian-trained practitioners applying for registration under the national scheme should not be put to a higher grandparenting standard than applied under the Victorian scheme;

The list submitted by the AACMA of Australian Chinese medicine programs deemed adequate for grandparenting purposes should be included on the CMBA list of courses deemed adequate for grandparenting purposes;

The CMBA grandparenting standards must take into account non-practising members of the profession to enable them to obtain non-practising registration during the grandparenting period.

yours sincerely,

Markus Goeldi BAc
