To Whom It May Concern:

My name is Angela La Spina and I am a Brisbane based Acupuncturist now in my 16th year of practice.

I feel that Continuing Professional Education is of the highest importance, however I feel it needs to address the needs of all different learning styles. I myself, predominantly a visual learner, feel that the provisions in the current draft of the Continuing Professional Development Registration Standard does not make enough provision for visual learners. I suggest there needs to be CPD hours allocated to the purchase of approved academic journals and relevant texts.

Thank you for allowing me to make a submission regarding this matter.

A. La Spina
