

Chinese Medicine Registrant Data: June 2013

Published September 2013

Introduction

The functions of the Chinese Medicine Board of Australia include:

- registering registering Chinese medicine practitioners and students
- developing standards, codes and guidelines for the Chinese Medicine profession
- handling notifications, complaints, investigations and disciplinary hearings
- assessing overseas trained practitioners who wish to practise in Australia
- approving accreditation standards and accredited courses of study.

The Board's functions are supported by Australian Health Practitioner Regulation Agency (AHPRA). For information about legislation governing our operations see AHPRA's Legislation & Publications at http://www.ahpra.gov.au/Legislation-and-Publications.aspx

The Board has analysed its fourth quarter of registration data and produced a number of statistical breakdowns about registrants to share with the profession and community.

The Board shares these breakdowns regularly. In the context of "grandparenting", as registration applications are finalised a clearer picture of the profession will emerge.

For more information on Chinese Medicine registration, please see the Board's website www.chinesemedicineboard.gov.au/Registration.aspx
