

14 July 2014

Professor Charlie Xue  
Chair  
Chinese Medicine Board of Australia

Dear Prof Xue

Re: CMBA Public Consultation Guidelines for safe Chinese herbal medicine practice

Thank you for your letter. We have been receiving a huge number of our members expressing their concerns regarding the practicality of part of the draft guideline.

All our members, as well as all Chinese medicine practitioners, do understand the primary objective of registration is to protect public safety. For the very same reason that we do not agree with part of the guideline with our point of views as per our submission enclosed.

We fully respect the patients right and the Board right to regulate, in return we expect our right to practice in providing best healthcare services to our patients to receive similar respect.

Please do not hesitate to contact us for further discussion.

Yours Faithfully

Guo Qing Wei  
CMASA Director  
Chief Administrator of CMASA National Office

Elline Khoo  
CMASA National Office Secretary
